

ASSIGNED

APPLICATION FOR PERMIT

Serial No. 5484

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office MAY -3 1919  
Returned to applicant for correction \_\_\_\_\_  
Corrected application filed \_\_\_\_\_

The undersigned John G. Taylor  
Name of applicant.  
of Lovelock, County of Pershing,  
State of Nevada, hereby make S application for  
permission to appropriate the public waters of the State of Nevada,  
as hereinafter stated. (If applicant is a corporation give date and  
place of incorporation.) \_\_\_\_\_

1. The source of the proposed appropriation is Rocky Canon Creek  
Name of stream, lake, or other source.  
sometimes referred to as O'Neal Canon Creek.
2. The amount of water applied for is .4 second-feet.  
One second-foot equals 40 miners' inches.
3. The water to be used for irrigation, stock watering and domestic  
purposes.  
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following  
point: This is an application for change in point of diversion and  
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.  
place of use of water heretofore appropriated. See supplemental sheet

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is \_\_\_\_\_
- (b) Description of land to be irrigated \_\_\_\_\_  
Describe by legal subdivision, or if on unsurveyed land it  
should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
- (c) Irrigation will begin about \_\_\_\_\_ and end about \_\_\_\_\_  
Month.  
\_\_\_\_\_, of each year.  
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE  
FOLLOWING INFORMATION:

- (d) Power to be developed is \_\_\_\_\_ horsepower.
- (e) Works to be located \_\_\_\_\_  
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.
- (f) Point of return of water to stream \_\_\_\_\_  
Describe in same manner as point of diversion.
- (g) Remarks \_\_\_\_\_

## DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works \_\_\_\_\_
6. Estimated time required to construct works \_\_\_\_\_
7. Remarks \_\_\_\_\_

For use of applicant.

SEE RULING #1466

### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion and place of use of the waters of Rocky or O'Neal Canyon as heretofore claimed under Proof 01612, is issued subject to the terms and conditions imposed in said Proof 01612, and with the understanding that no other rights on the source will be affected by the change proposed herein. A substantial headgate and measuring device must be installed and maintained to facilitate the measurement and control of water. The State retains the right to regulate the use of the water herein granted at any and all times. This permit is issued subject to the determination of the relative rights to waters of Rocky or O'Neal Canyon that may be made under adjudication proceedings under NRS 533.090 through 533.320. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed

.4 cubic feet per second, but not to exceed 4.0 acre-feet yearly per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before March 2, 1970.

Proof of commencement of work shall be filed before April 2, 1970.

Work must be prosecuted with reasonable diligence and be completed on or before March 2, 1971.

Proof of completion of work shall be filed before April 2, 1971.

Application of water to beneficial use shall be made on or before March 2, 1972. Proof of the application of water to beneficial

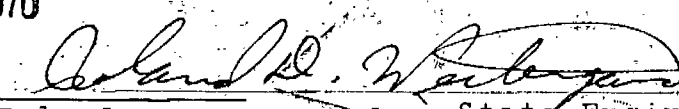

use must be filed with State Engineer on or before April 2, 1972.

WITNESS MY HAND AND SEAL this 2nd day

PROOF OF COMMENCEMENT OF WORK FILED APR 28 1970 of September 2, 1969.

PROOF OF COMPLETION OF WORK FILED APR 28 1970

PROOF OF BENEFICIAL USE FILED JUN 11 1973

IN THE STATE ENGINEER'S OFFICE.  
APPLICATION FOR PERMISSION TO CHANGE THE POINT  
OF DIVERSION AND PLACE OF USE.

Date of first receipt and filing in the State Engineer's Office.  
MAY-3 1919

Returned to applicant for correction \_\_\_\_\_

Corrected application filed \_\_\_\_\_

.....  
The undersigned, John G. Taylor, of Lovelock, County of Pershing, State of Nevada, hereby makes application to change the point of diversion and place of use of waters heretofore appropriated and beneficially used as hereinafter shown:

1. The source of water supply of the proposed change is Rocky Canon Creek, sometimes referred to as O'Neal Canon Creek.
2. The quantity of water desired to be changed is the entire flow and all of the waters of the source, all of which said waters have been heretofore and prior to the year 1905 appropriated and used for beneficial purposes; the quantity of water of the source is variable and the quantity of water desired to be changed being such quantity as will deliver upon the lands to be irrigated an average of .4 cubic feet per second during an irrigation season of six months, which quantity is and will be all the waters of the source, all of which have been heretofore appropriated, as herein stated.
3. The water is to be used for irrigation, stock watering and domestic purposes.
4. Water is to be diverted from its source at the following point: In the SE $\frac{1}{4}$  of the NW $\frac{1}{4}$  of Sec. 3, T. 29 N.R. 33 E., M.D.M.
5. The existing point of diversion under the former appropriation is in the SE $\frac{1}{4}$  of the NW $\frac{1}{4}$  of Sec. 3, T. 29 N.R. 33 E. M.D.M.
6. The water, herewith desired to be changed, has been beneficially and continuously used upon the following described lands: parts of the SE $\frac{1}{4}$  of NW $\frac{1}{4}$  of Sec. 3; SE $\frac{1}{4}$  of NW $\frac{1}{4}$  and SW $\frac{1}{4}$  of NW $\frac{1}{4}$  and NW $\frac{1}{4}$  of SW $\frac{1}{4}$  and NE $\frac{1}{4}$  of SW $\frac{1}{4}$  of Sec. 4, T. 29 N.R. 33 E. M.D.M.
7. The number of acres heretofore irrigated is 33.45 acres.
8. The number of acres proposed to be irrigated is 40 acres.
9. The description of the land proposed to be irrigated is as follows: part of the SE $\frac{1}{4}$  of NW $\frac{1}{4}$  of Sec. 3, T. 29 N.R. 33 E. and parts of the W $\frac{1}{2}$  of the SE $\frac{1}{4}$  and of the E $\frac{1}{2}$  of the SW $\frac{1}{4}$  of Sec. 28, T. 30 N.R. 33 E., M.D.M.
10. Estimated cost of the proposed works is \$2500.
11. Estimated time required to construct the works is two years.
12. Irrigation will begin about March 1st, or as early as the water begins to flow in the source of each year, and end when the water ceases to flow in the source, which will be about, if not before, August 1st.
13. The water has been used heretofore during the months of March, April, May, June and July for irrigation, if there were any water in the source during those months, and throughout the year when there was water in the source, for domestic and stock watering purposes.
14. Remarks: This application is designed to transfer all the waters of Rocky Canon Creek, all of which said waters have been heretofore used by claimant for irrigation, stock and domestic purposes, and used for irrigation upon the lands owned by applicant and upon government lands, which said government land was supposed to be owned by applicant and his grantors or predecessors in interest, and which said government land was in July of the year 1918 secured by another party by virtue of a homestead entry made thereon, to the lands described under paragraph 9, now owned and since the year 1890 owned by applicant.

It is proposed to change the point of diversion from the present point to some other point within the same legal subdivision described in paragraphs 4 and 5 hereof and from said point to divert all the waters from the source by means of a pipe, to save the losses occurring in the open ditch through the rocky porous soil, and thus endeavor to increase the cultivated area.

John G. Taylor Applicant.
